WEDNESDAY, JUNE 1, 1859. MR. MAGOFFIN DOWN IN BLACK AND WHITE. The following is said to be Mr. Magodie's written

exatement of his position on the question of slavery watement of his position on the question of slavery in the Territories:

That Congress has the power to protect while it cannot prohibit slavery in the Territories; that the Territorial Lagislature, as its agest, cannot exclude or atolish slavery, directly or indirectly, by on-friendly lagislature; has such legislation is void, and would be declared unconstitutional by the Federal courte, that it is the duty of the Territorial Lagislature is that the constitutional by the Federal courte, that it is the duty of the Territorial Lagislature be protect slave property, and property of all kinds are ender the protection of the government, the Constitution and the law; that our rights and remadiae seem to be now complete in the Territories, and nothing has occurred to show their imadequacy; that the Bemocratic party has brought as to this position of metry against all the efforts of the Opposition, constrating different opinions on the subject, and forming combinations to destroy it; that the erruggies and victories over the other parties have clearly shown that ours is the only party capable of pronecting our rights, or guarding them in the future; and if it should be necessary to pass laws to enforce the decreas of the judiciary, or evan to call out troops, that it would be the duty of the government to the ne.

The Courier of Monday hailed this statement as

full and unequivocal endorsement of intervention.

will be seen from this publication that Mr. Ma-in stands just where we placed him on the Ter-rial question, and that he stands just where the changi Enquirer, Louiveylia Democrat, Lexing-Statesman, Frankfort Yeoman, et all owner genera, not place him. Him position is substantially assumed by the Courier from the beginning. The Courier professes to be estisfied. More than

Courier, and condemned as ansoued. Mr. Magofin is as clearly non-intervention as even in a clearly non-intervention as even in a clearly non-intervention as even in a clearly non-intervention of the question. The friends of Mr. Magofin, so far as we are awars, have never claimed for him the possession of genius; but it is certainly high time the claim ware put forward in his behalf by some one.

We beg to saine the honor.

Mr. Magedia, we boldly seem, is a man of gaules; not of a rare and lofty order, it is true, but of a very magnificent degree. Indeed, the extent and services bloomer of his confice stent is really agreed to the catent and services bloomer of his confice atoms and services bloomer of his confice atoms to the catent and services bloomer of his confice atoms to the catent and services bloomer of his confice atoms to the catent and services bloomer of his confice atoms to the catent and the catent an out of a rare and lotty occur, it is true, and serviceableaness of his gessian atone is some respect for the meanness of its kind. It makes up after a fashion in aptness and quantity what it lacks in quality and elevation. It is a gessian that working the administration in the history of the country was the four years of Taylor ends alone. What it does is the only apology for ends alone. What it does is the only apology for increase her land and sea forces. The public cry in the competition competition to the administration of James Huchanau, it is follows:

does Mr. Magodin either repeakate non-intervention or endores intervention? Where is it? Which is it? Lot the Courier or anybody also point it out. We challenge its exhibition.

Mr. Magodin says, indeed, in this statement, that "if it should be necessary to pass laws to axrooke war decreased in the call off transport war. Decreased or THE JUNGLARY, or own to call out troops, that it would be the duty of the government to do so." but this does not meet the point. It is confised expressly to the "decrees of the judiciary" under existing laws; it concedes the propriaty of enforcing those decrees, if mecassary, but it Boom't comedo the point. Mr. Magodin declares, that, if necessary, but it Boom't comedo the point. Mr. Magodin declares, that, if necessary, but it Boom't comedo the point. Mr. Magodin declares, that, if necessary, but it Boom't comedo the point. Mr. Magodin declares, that, if necessary, but it Boom't comedo the point of the right of slave posint, Mr. Magodin declares, that, if necessary, but it became to come of the point of the judiciary" with respect to alava property in the Territories; but he doesn't say, that, if necessary, congress should "pass laws to emforce the decrees of the actual necessities of that property. In other words, he doesn't acknowledge that Congress ought in any smoorgeosey to pass laws for the production of slave property in the Territories; but he doesn't say, that, if necessary, but it is beel; the limperial robes are on his lack; the point of the bayonet. No wonder the remainder of the mass of the point of the bayonet. No wonder the remainder of the mass of the point of the bayonet. No wonder the remainder of the mass of the production of slave property in the Territories; though he thinks there may be contingencies in which Congress should "spass laws to enforce the decrees of the position of slave property in the Territories; though he thinks that there may be contingencies in which Congress should "spass laws to enforce the decrees of the position of slave property in t that there may be contingencies in which Congress abould "pass laws to enforce the decreas of the satisfary," rendered of course under such laws as there might happen to exist. He is for backing up the courts, if necessary, but not for going a stap further, is any event. If there chance to be laws under which the "judiciary" can render "decrees" for the beasets of slave property in the Torritories, etc. for the benefit of alave property in the Territories, he is in favor of enforcing the "decrees;" but, if he is apposed to the Government's having anything to do with the business. Is short, Mr. Magofin is to do with the business. Ie short, Mr. Magofin in for absolute non invertibility, as he has been and odorous hay: since the opening of the canvass. We defy Miramon and Juarez themselves to produce a prettier piace of anarchy in the time than this is, and we congratulate the country on the ingenity of our venerable Chief Magistrats.

The Paris correspondent of the New York Courier says "the orders given to the press everywhere, axcept in England, to refrain from publishing anything that might (even by forced construction) tend to enlightes the enemy, deprives, enfortnately, the whole European public of the means for anderstanding and astimating the situation of the question. The editor of the Democrat, however, is not less genuity of our venerable Chief Magistrats.
